1.1 Teaser

<p>Short teaser text (2 short sentences):</p>	<p>It is well known that lighthouses are usually raised on the shores, islands and rocks, to serve as landmarks for ships sailing wide seas, whereas they are practically redundant on rivers, since the shores are visible at any time. That's why there are just a few of them on the continent, and when they are in a pair it is a real rarity. Along the whole Danube there is just one pair of lighthouses - in Pančevo.</p> <p>This package offers a short and easy ride, an enjoyable time for all bicycle enthusiasts, motorcycle fans, culture and nature enthusiasts.</p>
