

TECLA

We have hereby the pleasure to invite you, on 22nd September 2014 at the premises of the *Flags Room of the European Parliament, Via IV Novembre n.149 - Rome*, to attend the International conference

Cloud Computing and Public Services

As closing event of the Project "**SECOVIA**"

(South East Europe jointly developed COMmon advanced VIRTUAL Accessibility solutions to support public services)

The event, financed by the South East Europe (SEE) programme, will see the participation of both national representatives of the partner countries and of EU officers.

It will be the occasion to tackle the opportunities of Cloud Computing in Public Administrations and the related strategies adopted by the European Union and by the South East Europe countries.

The SECOVIA project brings together 13 partners and 5 Observers from 10 South East European countries (Italy, Greece, Bulgaria, Austria, Romania, Slovenia, Hungary, Albania, Bosnia Herzegovina and Macedonia), and is composed by regional authorities and development agencies, territorial associations and knowledge institutions covering different policy implementation levels and institutional frameworks.

Your participation is very much welcome!

Thank you for the attention
